

## Patriarch Poetry

A *cinquain* is a form of poetry containing five lines that uses the following criteria:

- line one contains one word to name the subject
- line two contains two words to describe the subject
- line three contains three action words about the subject
- line four contains a four or five word phrase that describes the subject
- line five contains one word that has the same meaning of the word in line one, or a word that summarizes lines one through four.

Write a cinquain for one of the patriarchs that you learned about in Chapter 5 of your *We Believe* text.
